## Mold Pre-Preparing Products, Mold Cleaners, Anti-Noise Agents for Polyurethane Systems

### Outstanding Performance in Application / Superior Performance for Your Processes

Teknik Kimya auxiliary chemicals are designed to increase the performance of application area.

- > Economical
- > Fast and powerful impact
- > Easy to use

AGENTS

LIQUID COLORANTS  
(MASTERBATCHES)

COATINGS, VARNISHES AND  
AUXILIARY CHEMICALS

## TECHNICAL AND PHYSICAL PROPERTIES

Product	Explanation	Properties
Armacleam 0551	Mold cleaner	Odorless, fast impact
Armacleam 0662	Mold cleaner	Ecological, odorless, fast impact
Armaliz 2544 Conz	Mold pre-preparing	Ecological, concentrated
Sintaliz 2261 CC Paste	Mold pre-preparing	Creamy, easy to handle
Armaliz 2504	Anti-noise Agent	Ecological, odorless, colored
Armaliz 2506 CC/FN	Anti-noise Agent	Ecological, odorless, colored

**Teknik Kimya Mold Cleaners** are used in regular cleaning to maintain the pattern of the molded polyurethane parts and to reduce the wastage. Clean molds are required to get good efficiency and high molding performance to reduce the number of scraps. Our mold cleaners help to improve the quality of the finished parts and to reduce machinery shut down time by keeping the molds clean. Enhanced superior formula of mold cleaners, allows the mold to be kept clean for a long time improves the performance of production and quality of products. These mold cleaners are not corrosive and are fast impact.

**Teknik Kimya Mold Pre-preparing Products** are applied after cleaning the mold, especially before the application of polyurethane in complex molds. The performance of the release agent will be increased and the material will be adjusted to the mold faster.

Teknik Kimya San. ve Tic. A.S started its industrial experience in 1989 with the production of textile auxiliary chemicals. Today, it continues to produce performance chemicals, mold release agents, paint, liquid colorants, varnishes and auxiliary chemicals for automotive, furniture-Foam, shoes, textile, detergent, paint, plastic-rubber and polyurethane industries.

In 2012 by opening a new branch in Gaziantep and increasing the capital in 2019 our total area reached to 10000 m<sup>2</sup> and annual production capacity to 12500 tons per year. We export goods and services to more than 50 countries.

By investing in environment, sustainability, quality, innovation, R&D, new production technologies, human resources and services Teknik Kimya offers best solutions that add value to its stakeholders in the sectors it serves.
